**SUBJECT** 25X1A : Conversation with [ ] re  
CORONA/MURAL/LANYARD Scheduling'

25X1A

25X1A [ ] called me the afternoon of 1 March, stimulated by the  
interest of Dr. Scoville and [ ] and said that SSD claims that they  
can move the next CORONA/MURAL shot up from 22 March to 18 March.  
The LANYARD mission No. 8001 is still forging ahead for launch on 16 March.  
Please note that this contrasts with the 15 March date I have seen on Major  
25X1A [ ] forecast. [ ] said there was no spare payload at this  
time for LANYARD. 25X1A
